

PROPOSED WATER FACILITIES FEES AND SEWER CONNECTION FEES

PROPOSED WATER FACILITIES FEES

Meter Size	Proposed Facilities Fee Effective October 1, 2011	Proposed Facilities Fee Effective October 1, 2012
Single-family residential (up to 1 inch)	\$7,618	\$8,106
5/8- inch	\$6,094	\$6,484
3/4- inch	\$9,142	\$9,730
1- inch	\$15,236	\$16,210
1 1/2- inch	\$30,468	\$32,420
2- inch	\$48,746	\$51,870
3- inch	\$97,493	\$103,740
4- inch	\$152,340	\$162,100
6- inch	\$324,200	\$324,200
8- inch	\$487,443	\$518,720
10- inch	\$700,700	\$745,660

SEWER CONNECTION FEES

	Proposed Effective October 1, 2011
Residential	
Single-Family Residential	\$7,700
Multi-Family Residential (per dwelling unit)	\$6,853
Non-Residential	
Volume (per gallon/day)	\$21.508
CBOD (per pound/year)	\$8.527
Suspended Solids (per pound/year)	\$9.173

For the purposes of calculating non-residential sewer connection fees, carbonaceous biochemical oxygen demand (CBOD) and suspended solids (SS) are proposed to be reduced by 70% of the estimated actual concentrations in discharge, but not lower than the CBOD and SS for domestic wastewater, that is, 307 milligrams per liter and 258 milligrams per liter respectively. The property will be entitled to discharge CBOD and SS commensurate with the actual estimated concentrations. The volume component will not be reduced and will be charged at 100% of the estimated actual daily discharge. The CBOD and SS reduction is applicable only estimated daily discharge of 50,000 gallons or less. Discharge in excess of 50,000 gallons per day from a facility will be subject to a sewer connection fee based on full CBOD and SS concentrations. This provision would be in effect from July 12, 2011 through September 30, 2013.
